

Marketing Internship in the Field of Food Produce in New York, NY

Host Company ID: I-0506515

Internship Duration: 4-12 months (*stipend of \$100/week after 4 months*)

Company:

We are an award winning Food Company, located in New York.

We deal in Gourmet and specialty foods and cooperate with different stores and markets in the area.

We embrace the finest of food, the closest of family and the very best of friends. In fact, this is the mindset behind every unique creation we offer - from our indulgent, artisan fruit jams to our playfully sophisticated gourmet culinary sauces.

"Small batch" by choice and artisan in both style and mindset, we are culinary craftsmen with proudly obsessive-compulsive tendencies toward our product. To put it simply, we are anything but simple.

Connecticut-bred and Connecticut proud, we share many of the qualities that make our home state great. All-natural, premium and relentlessly idealistic, we continue to hold ourselves to the same high levels of quality and innovation that have made us a food lover's haven. So much more than a gourmet food company, we are

purveyors of culinary experiences.

For all of us around the table, the idea of "Natural Ingredients, Exceptional Quality" is much more than a tagline... it's an entire way of life.

Internship Position:

We are looking for international students with a Business or Marketing background and IT and Photoshop skills who are eager to learn and put their knowledge to use in a small company where they can make an impact.

Skills that interns will be able to train include:

- Social media and Marketing
- Finance
- Business
- Sales
- Inventory Control
- Product Management

Requirements:

- preferably Business or Marketing background
- IT & Photoshop skills
- eager to learn
- fluent in English
- willing to go on supervised business travel to trade shows (expenses paid)
- social-media savvy
